

Accelerate Your Success

Technology should help you, not hinder you. Kinetic Business has the solutions your business needs to succeed in a constantly changing digital world.

THE FUTURE OF BUSINESS IS BUILT ON FIBER.

Kinetic Business Fiber Internet is scalable to accommodate the growing high-speed demands tomorrow will bring. In fact, because it is fiber, it's the last Internet connection your business will ever need. Spend more time doing and less time waiting with ultra-fast fiber Internet designed with business in mind. Fiber Internet is the productive foundation that growing businesses are built upon.

NEVER MISS A CALL – NEVER MISS A BEAT.

Our award-winning, cloud-based phone system, OfficeSuite®, lets you take on business challenges wherever your business takes you. And, because it's supported by your Kinetic Business Fiber Internet, your voice and video communications will be of the highest quality.

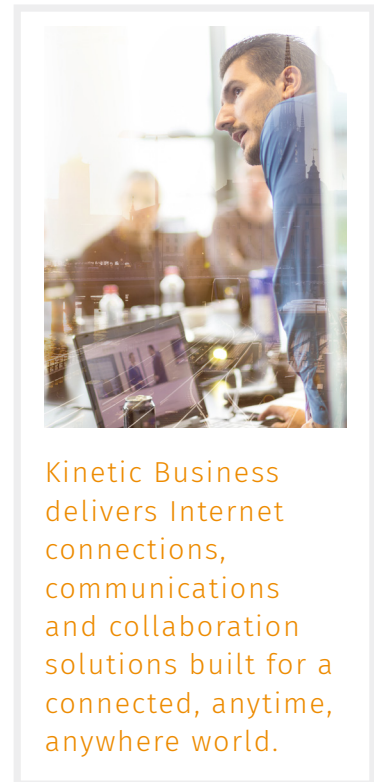

Mobility & Flexibility – OfficeSuite allows your business line to follow you anywhere via your mobile phone. Retrieve voice mails, start video/web/audio conferences and instant message with co-workers from any device, any time.

BE READY FOR ANYTHING.

There is never a good time for Internet downtime. That's why Kinetic Business Always-On is the smart choice to ensure business continuity in case of a network interruption.

As the name suggests, Always-On automatically switches over to a wireless Internet connection that keeps your network up and running until the primary connection is restored. It's a small investment for the real peace of mind of a 99.999% Internet uptime service level agreement.

Kinetic Business delivers Internet connections, communications and collaboration solutions built for a connected, anytime, anywhere world.
