Add or remove users and features based on business demands

Enhance productivity and save management time when employees self-manage features

Let business take place everywhere

Increase productivity by enabling your employees to work and collaborate seamlessly from anywhere using desk phones, smartphones and laptops.

Get business calls, faxes and emails on any device

Meet face to face and collaborate on any project in real time via video conference

Access and manage everything you need securely online from anywhere

saved in IT costs when businesses moved to UC¹

of businesses increased productivity with UCaaS¹

¹<https://www.atlantech.net/blog/decrypting-unified-communications-pricing-5-ucaaS-price-faq-answered>

One unified communications solution for all your needs

Cloud-based phone system with hundreds of features and unlimited calling

Company-wide chat and mobile apps

Video and audio conferencing, web collaboration tools

Integrates with existing off-the-shelf and custom-developed business applications

Visual voicemail and speech-to-text

Online faxing tools for any device

Presence and availability

Unify all employees and sites

Use one system for your entire organization without expensive wiring or IT support. Experience seamless collaboration and communicate across locations, while reducing IT complexity.

Administer changes easily for every employee and site from one portal

Leverage features and extension dialing across all locations

Move between offices, share workspaces and use any phone as your own

Avoid disasters and ensure business continuity

Secure everything you need in the cloud and remain reachable to customers during disasters even if your physical office isn't open.

Quickly and easily manage any feature or setting remotely

Use any device to make calls, check voicemail, fax, chat or video conference

Meet face to face and collaborate with clients in real time from anywhere

How much time is spent actually working versus trying to collaborate effectively?

of the U.S. workforce are engaged at work²

of the time is spent in meetings, on the phone or responding to emails³

³<https://news.gallup.com/reports/199961/7.aspx>

Business communications unlike any other

The easiest system to use and manage

If you are relying on the features of that new system for increased productivity and flexibility and they aren't easy to use, then there's no value in a new system. Because we develop our own software, Connected Office UC™ is designed to be user-centric, not device-centric. Our advanced system is so easy to use that every employee can access and manage the features and services of the system independently, reducing IT help desk dependency and drastically enhancing productivity and efficiency organization-wide.

MORE THAN
300,000
USERS ON OUR PLATFORM

Access anywhere, on any device

Transform how you do business by giving your employees the freedom to work from anywhere. Since our system revolves around users, not devices, user data can be shared amongst all of your devices. Whether on site with a customer, traveling or working remotely, the features and services are available from anywhere. Ensure business continuity and avoid costly downtime during disasters.

The most secure communications system

Unlike other providers, we own the code and utilize unique technology instead of SIP or open source to ensure calls, chats, messages and meetings are encrypted and no data or information is stored on the phone where it can be vulnerable to theft. We enlist our own development team that is dedicated to rapid advancements based on our customers' needs and requirements.

Features to make your employees even more productive

Because we develop our own software, features are added often and updated frequently—at no additional cost.

Collaborate easily to enhance productivity

Connected Office HD Meeting

Meet, chat, collaborate and share to get work done from anywhere.

Meet face to face, hassle-free

Present and collaborate on anything in real time

Share any application or your entire desktop

Compatible with existing conference room systems like: Polycom, Cisco, Tandberg and LifeSize

Record any audio or video meeting

Allow all of your office and staff to act as one team

Integrate seamlessly with Outlook and Google

Utilize high-definition video and audio conferencing apps for Windows, iOS and Android

Share your ideas and work from any device

Streamline and improve tasks with these powerful integrations

Standards-based API allows you to connect third-party applications to Connected Office UC™

Salesforce

Integrate powerful UC features within Salesforce to enhance productivity, improve customer service, save time and increase management visibility.

Skype for Business

With no switches to manage or monitor, bring calling and phone presence functionality into Skype and Lync without any additional Microsoft licenses or charges.

G Suite

Click to call from any webpage or web app and bring UC to your Google apps.

Microsoft Office 365

Make your contacts, email and calendar part of your UC solution.

Microsoft Dynamics

Streamline everyday functions and gain access to new UC features.

Web-based CRMs

Maximize productivity by integrating calling with Hubspot, CRM 1, Apptivo, Clio Desk, Freshdesk, JobDiva, Nutshell and Insightly.

MyOfficeSuite portal: The heart of your unified communications system

Administrators and employees can easily make changes to the system and their individual accounts from a single interface that anyone can intuitively use.

Utilize MyOfficeSuite portal to:

Launch video meetings, send faxes and listen to business voicemail

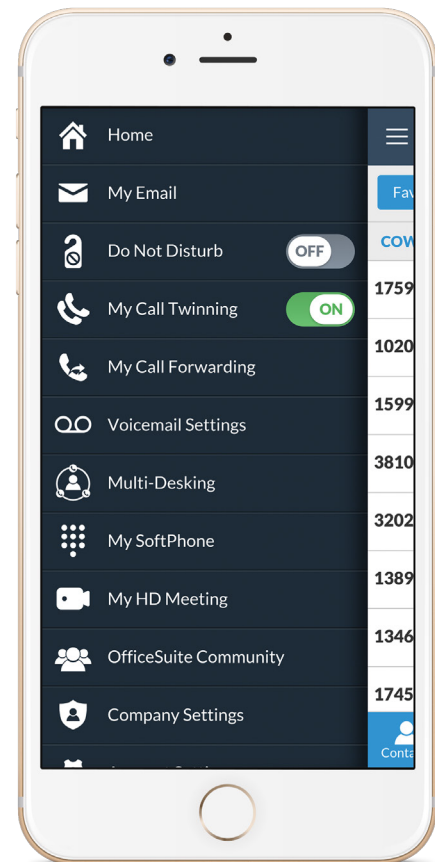

Chat live in real time with anyone in your organization

Text with anyone outside of the organization without using your personal mobile number

View the availability of every coworker and click to call them

Customize dashboards so employees can self-manage features

Make changes, provision services, add users and order phones and devices

Control it all from the cloud, not your desk phone

Make real-time changes from anywhere without ever touching a desk phone, stepping foot in an office, or calling your technical team or customer service.

Use any device, anywhere, anytime

Meet face to face with customers, chat live with colleagues, take calls, send faxes and make changes from any PC, laptop, tablet or smartphone.

Manage everything from one place

Log in to easily make company-wide changes, add employees, update auto attendants, forward phones or get help instantly.

Unlock employee potential with customizable access

Give employees secure access to only the tools they need to get their work done. Create profiles to quickly add employees with the same permissions.

Order services quickly and easily

Manage, build, install, activate and track service orders for faster turn-up through the Order Wizard.

Quick access to support for every employee

Get answers instantly. Watch instructional videos or chat live with a support representative. Everything is available 24/7 in our online community.

Move beyond help desk support

Redeploy IT resources when employees can easily use and manage all of the features of the system from an intuitive dashboard.

Collaborate instantly with your team

Instantly see who is online and available to help get work done. Click to call, meet or chat in real time across all your locations.

Gain new business insights

Identify staffing inefficiencies, enhance productivity, boost satisfaction and elevate sales efforts with built-in business intelligence tools.

Why Connected Office UC™?

Database security

No information or data is stored on vulnerable local servers. Our databases are stored on secure servers in our cloud infrastructure — all protected by industry-standard firewalls, access control lists, authentication and authorization.

Communication security

Calls, messages and meetings using the Internet are encrypted from the handset into our secure network.

Protect private health information

Our UC solution is hosted in carrier-grade data centers with strong security controls, ensuring your calls and messages are encrypted and data is protected.

100% cloud UC service

Developed by a leading cloud provider and UC pioneer

Delivers 99.99% SLA

More than 300,000 users on our platform

Optimal security

Award-winning MyOfficeSuite portal

Ease of use

Proven success

We own the code
